Thule SnowPack (6pair)
7326

The sleekest and most aerodynamic rooftop carriers available.

1. Anodized aluminum, rooftop ski and snowboard carrier designed for all types of skis and snowboards
2. Available in three different sizes – for 2, 4, or 6 pairs of skis
3. Holds skis and snowboards securely with ultra-soft rubber arms that grip without scratching the surfaces
4. Safely carries thicker modern skis and snowboards and reduces the carrier height when unloaded thanks to the integrated vertical spring system
5. Easy to open and close while wearing gloves via an oversized push button
6. Added roof clearance for skis with tall bindings due to included extension feet that raise the carrier
7. Lock the skis to the carrier and the carrier to the car with the Thule One-Key system (locks included)
8. Fits directly into the load bars' T-tracks via the integrated, tool-free mounting hardware (square bar mounting kit available as an accessory)
9. Meets stringent safety standards (City Crash test and TÜV-approved)
